**Optimal lifting techniques adopted by Chinese men when determining their**

**maximum acceptable weight of lift**

Chen, Yi-Lang

Aihaj v61n5 PP: 642-648 Sep/Oct 2000

ISSN: 1529-8663 JRNL CODE: AIH

WORD COUNT: 4524

...ABSTRACT: the moment arm by flexing the elbow and shoulder joints during

landing, to compensate for **weakness** of the upper extremities.

...TEXT: the moment arm by flexing the elbow and shoulder joints during landing, to compensate for **weakness** of the upper extremities. The high

prelifting acceleration used during the infrequent tasks caused high...

...L5/S1 disc. These results emphasize the importance of considering the

roles of upper extremity **strength** when designing lifting tasks for Chinese workers.

Keywords: acceleration effect, lifting technique, MAWL, posture, upper extremity **weakness**

Epidemiological studies indicate that lifting is a major contributing factor in the development of low...

...questionable. Some comparative studies also found that the Chinese are

weaker in terms of muscle **strength**, particularly in the upper extremities, than Caucasians.(10-11) This is important because the weakest

...

...Twenty-two Chinese male university students and employees were recruited

for the study. Anthropometric and **strength** measurements were obtained for

all participants. The data are listed in Table I. All subjects...the F-K and F-S tasks.

## DISCUSSION

Previous studies have documented differences in muscle **strength**, especially in the upper extremities, between Caucasians and Asian populations. The upper extremity isometric and...

...in this study were lower than those reported by Jiang.(36)  
Understanding whether this relative **weakness** influences lifting techniques is essential for developing lifting guides for Chinese workers. The purpose of... is suggested here that they modified their postures because of their relatively lower upper extremity **strength** compared with the higher **strength** of their trunk and lower extremities.

The posture adopted at the start of the lift has been used frequently to **characterize** the optimal body posture that subjects have naturally assumed when lifting at different frequencies and...

...task (118 deg for task F-K and 122 deg for task F-S). This **result** is in conflict with those of previous studies. Davis et al.(37) found that lifters...

...bent their legs to make better use of the back and leg extensor muscles; this **resulted** in an approximate twofold increase in prelifting acceleration compared with the 4 lifts/min task...

...tasks are performed, the stooped technique reduces the demand on the fatigued quadriceps muscles. The **results** of this study are in general **agreement** with the **findings** of Trafimow et al.(24) and support the concept that the frequency could be a...

...m for 4 lifts/min). A reasonable explanation for this is that, because of arm **weakness**, the subjects used diverse landing postures (i.e., extension or flexion of the joints or...accelerated the load upward and then shortened the moment arm to doubly compensate for the **weakness** of upper extremities for landing. The effect of the **weakness** could be masked by stiffening the arms to avoid the disadvantage of the longer moment...

...their low back when performing floor level lifts.(42,43) Moreover, masking of the arm **weakness** by the stiff technique and higher acceleration would encourage subjects to select heavier loads as...

...the arms did not need to be stiffened. This strongly suggests that the

upper extremity **weakness** in Chinese is more noticeable in the 1 lift/min task than in the 4...

...counteract the inertial force produced by the heavy load and to possibly compensate for arm **weakness** at the ending of the lift. This would cause high compressive force at the L5...

**Wage determination regimes and pay inequality: A comparative study of  
Latin**

**American countries**

Marshall, Adriana

International Review of Applied Economics v13n1 PP: 23-39 Jan 1999

ISSN: 0269-2171 JRNL CODE: IRAE

WORD COUNT: 7604

...TEXT: regimes' (collective bargaining structures; state intervention  
in  
wage setting; and union rights that determine union **strength** ) are  
discussed, stressing the specific traits of centralization within Latin  
America, and the selected countries...

...these institutions determine the degree of centralization of wage  
setting, and others, such as union **strength** and orientation, can also  
exert an autonomous influence on wage differentials. The analysis is  
guided

...have been identified generally with decentralized bargaining,<sup>7</sup> and, consequently, an inverse relationship between union **strength** and wage dispersion has usually been assumed. Still, centralized bargaining structures may coexist with powerless trade unions (and decentralization with strong unions), and thus union **strength** is an additional, independent determinant of wage inequality; unions may even be able to mitigate...

...of centralization of wage setting (whether alone, or combined with other factors such as union **strength**) is inversely associated with the extent of pay inequality. I compare the selected eight Latin...firm bargaining continued to rule in 1993, when a mere 0.4% of all collective **agreements** were the **result** of inter-firm bargaining (Chile, 1995). All the countries other than Chile are **characterized** by hybrid models of collective bargaining. These mixed models differ nonetheless in that in Colombia...

...only the actual structure of negotiation (i.e. the proportion of firm versus industry-wide **agreements**, and of workers covered by each one of them) makes it possible to identify which...strike regulations may bias conflict resolution in favour or against workers. Here, to indicate the **strength** of union rights I consider only strike regulations.

To classify countries in terms of the...

...after 1989, and Colombia).

The nature of the right to strike contributes to defining union **strength**, but actual **strength** is difficult to gauge. Estimates of union density in manufacturing, so available but frail for...two and three in Table 2), which persists if bargaining structure is combined with union **strength**,<sup>26</sup> and with (previous) state direct wage control—as discussed earlier, a form of centralization...that in the countries where bargaining has normally been decentralized, it generally coexisted with extreme **weakness** if not outright repression of trade unions and their activities. Second, that differences in the...

...sums of partial scores. More weight has implicitly been assigned to 'bargaining level' and 'union **strength**' (range of variation 1 to 3) than to 'tripartite bodies' (values 1 and 2), and...lower than in Germany.  
26.

There is also indication of an inverse association between union **strength**

and wage dispersion. 27. If, instead of the (un-weighted) coefficients of variation presented in...

...TEXT: in various arenas, and discuss the problems it causes. Following this, an explanation for the **strength** of this dualistic thinking will be advanced, drawing particularly on feminist scholarship on language and... being (even in the very limited context of preference satisfaction) can be made. As a **result**, the only normative judgment that can be made is that efficient outcomes are better than inefficient outcomes - a point with which few would **disagree** in the abstract. While the subfield of social welfare theory eases the assumption of interpersonal incomparability

(in specific and highly formal ways), the **resulting** choice theory **characterizations** of utilitarian and "Rawlsian" social welfare functions are barely recognizable to philosophers and of limited...

...a "soft" economics. This judgment relies on an association of hardness with valuable, masculine-associated **strength**, and softness with inferior, feminine-associated **weakness**. However, hardness may also mean rigidity, just as softness may also imply flexibility.

A pursuit...

...can lead to rigidity, just as surely as a pursuit of feminine softness (without corresponding **strength**) leads to **weakness**. There is no benefit to specialization on the side of one sex to the exclusion of the other: neither rigidity nor **weakness** - the two extremes of hardness and softness - are desirable. Together, in fact, they define brittleness. There is benefit, however, from exploiting the positive complementarity. **Strength** tempered with flexibility yields a balanced and resilient discipline.

... such as The Journal of Economic Behavior and Organization. One  
merit of specialization is the **strength** and coherence of the  
tradition of  
research on which future researchers can draw. Perrow's...

...the more durable organization theoretic constructs (the dimensions  
of  
'analyzability' and 'uncertainty') (Scott 1987).

The **weakness** of specialization is obvious: it ignores the  
relationship between the focal force and other forces...

...how the influence of all other forces can be reduced to a single  
force.

The **weakness** of the reductionist approach is its tendency to  
over-simplify the issues it tackles. In order to mitigate this  
**weakness** ,  
reductionists often redefine a research topic exclusively in terms of  
the  
single issue it can...approaches and thus tends to generate richer  
accounts

than its more single-minded alternatives. The **weakness** of the eclectic approach is that this richness is purchased at the cost of a...idealists, they believe that ideational forces dominate material forces in every domain. Materialists will also **agree** that the more ideational forces are relatively more effective in shaping the more subjective realities...

...the determinant forces are therefore found along the diagonal of the 4x5 matrix. A reconciliation **results** because applying the same logic to the metatheoretical idealist perspective generates the same **result** : in the transition from short-run material causes to long-run idealist causes, the medium run is **characterized** by a distribution of powerful causal forces along the diagonal. Thus in the medium term, both materialists and idealists might **agree** that the capabilities and systems that **characterize** organizations are primarily influenced by technical-economic forces. For metatheoretical materialists, this is where long...

...for metatheoretical idealists, this is where short-run material influence finally wanes. Both perspectives would **agree** that the domains of strategy and culture are shaped primarily by ideational forces in the...

... in oil prices by tightening monetary conditions, but the  
Federal  
Reserve, responding to signs of **weakness** in the U.S. economy, took  
less  
vigorous steps, raising its discount rate 1 1/2...

...intervened substantially during the summer of 1979 to resist the  
dollar's decline.

The continued **weakness** in the dollar and other signs of rapidly  
deteriorating inflation expectations, including sharply rising  
prices...  
debts with sometimes reluctant foreign monetary authorities. In  
addition,  
they judged that the dollar's **strength** could well be temporary. The  
dollar had been supported primarily by unusually favorable interest  
differentials...other G-10 currencies from its level in the fourth  
quarter  
of 1980, and its **strength** concerned some U.S. policymakers. Concern  
was  
expressed in FOMC meetings, among other forums, about...trade data in  
mid-August. Citing "the potential for greater inflation, associated in  
part  
with **weakness** in the dollar," the Federal Reserve raised its discount

rate 1/2 percentage point to...G-7 authorities intervened heavily in support of the dollar throughout the episodes of dollar **weakness** in 1987, and sold dollars on several occasions when the dollar strengthened significantly. Net official...as \$42.22 per ounce of gold. When the Second Amendment to the Articles of **Agreement** was approved on October 19, 1976, the Congress repealed the Par Value Modification Act but...

...S. gold stock from \$20.67 to \$35.00 per ounce. Subsequently, the Bretton Woods **Agreements** Act directed the Secretary of the Treasury to pay \$1.8 billion from the ESF...

...The ESF grew over time through subsequent revaluations of gold, interest receipts, and net profits **resulting** from foreign exchange operations. Beginning in 1978, SDRs allocated by the IMF to the United...

...should intervene in the exchange market if necessary to counter disorderly conditions which may be **characterized** inter alia by disruptive short-term movements in the exchange value of its currency. (3... they intervene." (9)The U.S. notification to the IMF was amended following the Plaza **Agreement** of September 1985 to provide for intervention "to counter disorderly market conditions, or when otherwise...

...influencing the behavior of the exchange rate in the short run. There was also broad **agreement** that sterilized intervention [intervention that leaves the monetary base unchanged] did not generally have a...

... inefficient in that there are lost gains from trade between these workers and firms. The **weakness** of this model is that it is silent about the mechanism that keeps wages rigid...

...quality, improves in proportion to the encouragement it receives. A

plentiful subsistence increases the bodily **strength** of the laborer, and the comfortable hope of bettering his position, and of ending his days perhaps in ease and plenty, animates him to exert that **strength** to the utmost. Where wages are high, accordingly, we shall always find the workmen more...

...just like a perfect competitor.

All of the models to be discussed below assume the **strength** of the wage productivity relationship is sufficient to generate an efficiency wage. We shall see...credible in that everyone knows that they will be upheld.

The central problem is to **characterize** the possible self-enforcing implicit contracts (the one outlined above might not be the only...

...and/or unemployment are necessarily a part of them. We will call a self-enforcing **agreement** "non-trivial" if it specifies behavior which is not in the direct short-term interest of one or both of the parties. A preliminary **result** is that such an **agreement** will exist only if a continuation of the relationship will generate a surplus for

... This assumption is obviously subject to a high degree of uncertainty.

Recent Developments

The general **weakness** of oil prices during the past three years reflected, in large measure, medium- to longer...the average price level in

October 1988. However, prices remained volatile in early 1989.

The **weakness** of the oil market during most of 1988 tended to obscure the significant changes that...dominant determining factor.

Outlook

The oil market situation in early 1989, as noted earlier, was **characterized** by a considerable firming of prices as a **result** of the implementation of the November 1988 OPEC **agreement**, the generally positive reaction to the **agreement** by market participants, and the apparent continued **strength** of demand. Given the existence of large unused production capacity of the members of OPEC...

...inside and outside of OPEC and, more particularly, the extent to

which  
the recent OPEC **agreement** will be adhered to. In the medium to longer  
term, the price of oil will...

... what some people believe, this has strengthened the hands of  
the  
Palestinian negotiator. Baraq's **strength** now lies in his **weakness**  
. He  
will use his domestic crisis to try to obtain maximum concessions from  
the  
Palestinians...

... that the mere holding of the summit has broken the current  
deadlock. No  
doubt, the **results** of the summit will forge a new course in  
the  
methodology of Palestinian-Israeli negotiations, a  
methodology  
**characterized** by actual and direct participation by the  
two  
decision-makers and by the US sponsor. The **results** of the summit  
will  
also pave the way for other follow-up summits, the aim of which will  
be to  
impose a framework **agreement** that will circumvent all the final  
solution  
issues in accordance with the proposed scenarios. Or at least  
such a  
framework **agreement** will ignore the 13 September deadline, extend  
the  
interim phase, and abort any unilateral Palestinian...
